## SUMMARY

---

A skilled JS developer proficient in React, Express JS and GraphQL seeking a dynamic role to apply my expertise in crafting robust and scalable web applications. Currently expanding backend skills by learning NestJS, MySQL, and Swagger.

## TECHNICAL SKILLS

---

**Programming Languages:** JavaScript, TypeScript, HTML, CSS, SCSS

**Libraries & Frameworks:** Express.js, React.js, Node.js, Nest.js

**Databases:** MySQL, MongoDB

**Other Skills:** Linux, Git, GraphQL, Redux, Context API, REST API, Swagger, cPanel, JIRA, Google Firebase, CI/CD pipelines

## PROJECTS

---

### IGoalZero

May 2022 – Present

*SAAS business web application platform*

*React JS, GraphQL, Context API, Redux, Git, HTML5/SCSS, MongoDB*

- Built a dynamic SAAS platform enabling users to create custom modules, forms, workflows, dashboards, and analytics with React.js and GraphQL.
- Designed responsive UI components using React.js for cross-device compatibility.
- Integrated GraphQL and MongoDB for efficient data management and improved performance.
- State Management: Used Redux and Context API for robust state management.
- Managed tasks using Jira and version control with GitLab including CI/CD pipelines.
- Recently began contributing to the backend of IGoalZero using GraphQL and MongoDB.

### Monte-Fiero Clinical Trials

Aug 2022 – Dec 2022

*Clinical Trials Project*

*React JS, REST API, Context API, Redux, Git, HTML5/SCSS, Material UI*

- Developed user-friendly interfaces using React.js and Material UI.
- Used Redux and Context API for state management and integrated REST APIs.
- Worked with backend and design teams to ensure project alignment.
- Used GitLab and Jira for version control and task tracking.

### Snakes & Ladders

June 2022

*Independent Project*

*React JS, Git, HTML5/SCSS*

- Created a simple game interface with React.js.
- Used GitHub for version control and modular code design.

## EXPERIENCE

---

### Engineer, Software Development

May 2022 – Present

*CodeCraft Technologies*

*Mangalore*

- Developed responsive web applications using React.js for Monte-Fiero and IGoalZero.
- Integrated REST APIs and GraphQL for data handling.
- Used Redux and Context API for state management.
- Contributing to backend development using GraphQL and MongoDB.
- Learning Next.js, NestJS, and Swagger to enhance full-stack capabilities.
- Collaborated with cross-functional teams.

### Technical Support Engineer

May 2021 – April 2022

*Glow Touch (Diya Systems)*

*Mangalore*

- Served as primary point of contact for support related to web hosting and server issues using cPanel tools for troubleshooting.
- Maintained service continuity and responded to client requests.
- Used cPanel, Linux, Putty, DNS knowledge for troubleshooting and support resolution.

## EDUCATION

---

**Bachelor of Engineering in Computer Science**  
*Karavali Institute of Technology*

Mangalore  
2016 – 2020

## LANGUAGES

---

• English (Fluent), Tulu (Native), Kannada (Fluent), Hindi (Fluent), Sanskrit (Basic), Japanese (Beginner)
